

SPENCER SOUTHERN

Dear Spencer,

Here goes nothing. I really and truly can never express in words what your love and friendship has meant to me these last two years. I can only say that I have enjoyed every minute, even though we had our little arguments, they were soon forgotten. I know that I could never share my love and friendship to ~~one~~ ^{anyone} else that is as nice as you. I hope that you have enjoyed these two years as much as I have, and I hope that we can share many more. If you stay the way you are now, and you keep that wonderful personality, you will go far in life. May all your dreams come true, for a person as nice as you are deserves the best of everything. May happiness remain with you through out the future. Just remember the good & bad times that we have spent together, but I could never have spent them with anyone that I love more than you. I sure will miss you next year and wish that you could be here. Well I'm wishing the best of luck to one of the nicest,

and most likable boy I know, and is
especially the ~~one~~ one that I will always
love and cherish. I will always cherish
your friendship as long as I live. May
God Bless you and Remember Me Always.

Love Always,
Carolyn

Devotion to the career he has chosen to serve has brought admiration and sincere gratitude from faculty and students. His sense of humor is a delight and the high standards of personal conduct which he demands serves as a genuine inspiration. He cannot hide his concern for the student. They in turn do not try to hide their respect for him.

Assembly opened with a few remarks from Mr. R.

The assembly was a most interesting one, and the remarks made by Mr. R. were very interesting. Mr. R. gave the best of advice and encouragement to the students when they were asked to purchase a camera for their school.

After a few minutes of relaxation from the day's work, Mr. R. and Mr. R. had a good time.

Mr. R. has more to spare for Mr. R. and answers some of the questions.

Secretarial duties relieved with added assistant

As assistant principal, Mr. Matejka sees some of the school policies with students.

The leaps and bounds growth of Northwest increased the paper work of the administrative assistants. Mrs. Wilson and the guidance department breathed easier when Mrs. Welker joined the staff in September.

Mrs. Maxine Smith, secretary, keeps records before writing books.

The complexity of today's student continually challenges the effectiveness of a counselor. Insisting that decisions be made and not postponed requires finesse and trust. Through individual consultation and testing, college or vocation is determined. Guidance is essential in either.

Basic communication enlightened

James Nelson studies grammar for that semester exam.

Probably the most difficult part of learning a new language is not the learning and the knowledge of the language, but the application of it in communication. Language study is not just a matter of learning the words and somewhat through it, the grammar and the pronunciation. It is a matter of becoming aware of the fine points of the language, the subtleties of Spanish! The knowledge of French and the study of grammar brings him to the point of understanding the language.

Mrs. Walker tries diligently to get Freshmen students started on the right road of good grammar.

Book Fair makes reading a habit

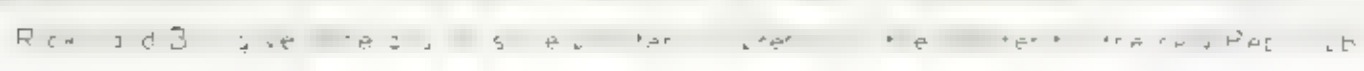

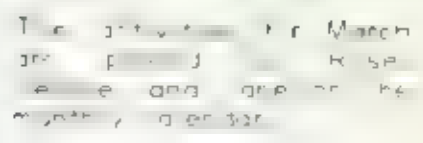

It does to browse through books at a library or to find a friend.

The number of people in the world is increasing rapidly. In 1950, there were about 2.5 billion people in the world. By 2050, the population is expected to reach 9 billion. This increase in population has led to a number of problems, including a shortage of food, water, and energy. One of the main causes of these problems is the way we use resources. We are using resources at a rate that is not sustainable. We need to find ways to use resources more efficiently and to develop new sources of energy. One way to do this is by using renewable energy sources, such as solar and wind power. Another way is by using less energy in our homes and businesses. We also need to find ways to grow food more efficiently and to reduce food waste. If we do not take action now, the problems caused by population growth will become even more serious.

The first step in the process of
 developing a program is to determine
 the needs of the community. This
 is done through a process of
 consultation with the community
 members. The next step is to
 develop a plan of action. This
 plan should outline the goals of the
 program, the methods to be used, and
 the resources needed. The final step
 is to implement the program and
 evaluate its effectiveness.

1. $\lim_{x \rightarrow a} f(x) = L$ if and only if $\forall \epsilon > 0 \exists \delta > 0$ such that $0 < |x - a| < \delta \implies |f(x) - L| < \epsilon$.
 2. $\lim_{x \rightarrow a} f(x) = L$ if and only if $\lim_{x \rightarrow a} |f(x) - L| = 0$.
 3. $\lim_{x \rightarrow a} f(x) = L$ if and only if $\lim_{x \rightarrow a} (f(x) + g(x)) = L + \lim_{x \rightarrow a} g(x)$.
 4. $\lim_{x \rightarrow a} f(x) = L$ if and only if $\lim_{x \rightarrow a} (f(x) \cdot g(x)) = L \cdot \lim_{x \rightarrow a} g(x)$.
 5. $\lim_{x \rightarrow a} f(x) = L$ if and only if $\lim_{x \rightarrow a} \frac{f(x)}{g(x)} = \frac{L}{\lim_{x \rightarrow a} g(x)}$ provided $\lim_{x \rightarrow a} g(x) \neq 0$.
 6. $\lim_{x \rightarrow a} f(x) = L$ if and only if $\lim_{x \rightarrow a} \sqrt[n]{f(x)} = \sqrt[n]{L}$ provided $L \geq 0$ and n is even, or L is any real number and n is odd.
